

# CCMS DATA EXCHANGE DATA SHEET

## ADMINISTRATIVE OFFICE OF THE COURTS

INFORMATION SERVICES DIVISION

### Court Sends Warrant Issuance/Recall Notification (ISS901)

#### Exchange Description

A trial court uses this NIEM-based data exchange to send warrant issuances and recalls to an integration partner when the trial court orders that a warrant be issued or recalled. Examples include when the trial court:

- Issues an arrest warrant for a failure to appear or a failure to perform a court-ordered action.
- Sends a warrant status recall update when a person shows up in court.

The notification message sent by the trial court to the integration partner contains the warrant information (e.g., CCMS case number, wanted person, warrant type, and severity level).

The success response message from the integration partner to the trial court indicates whether the warrant issuance or recall notification has been accepted or rejected. If the notification is accepted, warrant information is returned (e.g., warrant control number [WCN]).

#### Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange, as follows:

- There is no business response to this exchange.

#### Error Handling

If the integration partner does not successfully receive and process the incoming message, the trial court will receive an error message with an error code and error reason.

#### PROBABLE INTERESTED INTEGRATION PARTNERS

- Attorney General
- California Department of Revenue and Recovery
- City attorney
- District attorney—adult and juvenile
- Law enforcement agency/sheriff
- Probation—adult and juvenile

#### RELATED EXCHANGES

Related data exchanges are any preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- Court Receives Warrant Status Update Notification (ISS802), which is used by the trial court to receive warrant status updates from an integration partner.
- Court Receives Warrant Reissuance/Purge Request (ISS803), which is used by the trial court to receive requests to reissue or purge warrants.
- Court Receives Warrant Proof of Service Notification (ISS804), which is used by the trial court to receive notification of proof of service for warrants.
- Court Receives Civil Issuances (Writs/Warrants) Query (ISS806), which is used by the trial court to receive requests to issue civil writs/warrants.
- Court Sends Warrant Reissuance/Purge Request Confirmation Notification (ISS905), which is used by the trial court to confirm a request to reissue or purge a warrant.

For more information about this and other data exchanges, contact [integrationpartners@jud.ca.gov](mailto:integrationpartners@jud.ca.gov)

### **Additional Information**

- A single exchange message is sent for each warrant issuance/recall notification.
- The response message to this exchange is sent immediately upon receipt and processing by CCMS.
- Both the success and error response messages must be sent as separate messages using the formats defined in this exchange.
